Fifth Offense

Housebreaking is charged against fourteen-year-old boy.

Ray Dupin Pleads Not Guilty and Case Will be Tried December 2.

HAS BEEN TO HOUSE OF REFUGE

Louisville, Ky., Oct. 19.—Ray Dupin, a guileless looking fourteen-year-old boy, was brought into the Criminal Court this morning and arraigned upon the charge of housebreaking. The officers of the court were astonished at the extreme youth of the accused and Judge Caruth said that if a plea of guilty could be arranged he would have the child committed to an orphan asylum with which it appears the boy's friends had made some arrangement. Capt. James Hendricks explained to the court that this was Dupin's fifth offense of housebreaking and that if he was sent to an orphan asylum he would surely contaminate all the other inmates.

Young Dupin made no denial, but merely listened with interest to the consideration of his case. He has already been to the House of Refuge more than once, according to Capt. Hendricks, but nothing seems to have had a good influence over him. Judge Caruth was averse to a formal trial of the boy for the charge against him, but the youngster pleaded not guilty and nothing remained to do but assign a date for his trial, which was held as December 2.

CHILD LABOR.

Every now and then the south is troubled by northern newspapers to the riling criticism of its toleration of child labor in cotton mills and other factory industries. The cause of these criticisms has been largely removed by the anti-child labor law enacted in the Carolina and Alabama. But still the middlemost rapings and roadings go on.

But this much we can say in reply to the sanctified critics—that whatever laws we do enact in the south to prevent unwholesome child labor will be enforced. That is more, for instance, than can be said of the like laws in New Jersey, if the comments upon the by the usually accepted Philadelphia Press are to be accepted.

That newspaper charges that the legislature of New Jersey has left the authorities without the necessary funds to secure any sort of decent enforcement of the anti-child labor statutes and that these are violated almost wholesale by the perjury of parents certifying falsely to the ages of their children, when they wish to sacrifice to the milk mottos. The grand jury of the state refuse point blank to indict parents for this criminal offense and hence the law is a practical dead letter.

Under these circumstances we should think our northern friends would appreciate that modestly forbids them from snatching their eyes to this lawlessness in New Jersey, even though their altruistic officiousness impels them to lambaste any southern state for not having any law on the subject.

If we believed that to enact one in this state would lead to such contempt for it as is practiced in New Jersey we would resist the creation of so wide an invitation to inhuman conspiracy and anarchy—Atlanta Constitution.

SEEDING WHEAT.

(From the Ohio Farmer.)
Of all the crops, wheat is most carelessly put in, and the most is trusted to luck; with the advent of improved machinery the carelessness seems to increase. This last season has furnished a striking illustration of this. Last fall was an exceedingly wet one, and seeding was deferred later than usual on that account. As a result much of the wheat was sown in such haste that little or no preparation was made. It has been our practice to give the soil as thorough culture as we would for any other crop. The old practice is followed by many of seed-

ing the wheat in rough, cloddy soil on the theory that the action of the winter frosts will pulverize it enough.

The sooner the ground is plowed for wheat after harvest the better, for early plowing permits the soil to become fine, compact and thoroughly pulverized. Thus too rapid evaporation is checked and soil moisture is conserved, insuring a good start. Rough, cloddy ground cannot do this, but if the weather is dry, as it is in many instances, the young plants suffer for want of moisture just at a time they need it most.

The same necessity for culture exists where wheat is sown on corn ground, although many sown on corn stubble without any preparation at all. This practice has become much more general since the introduction of the disk drill. Those who use it claim that the disk cuts a furrow for the wheat with a solid side that protects the young plants in winter and forms a more compact bed for the seed when the soil is cultivated. This sort of talk will do for agents, but not for farmers.

Nothing so quickly relieves tired eyes as bathing them in hot water. Two or three drops of glycerine given to a baby suffering from stomach ache will ease the pain, if wind is the cause. Saturate a piece of pumice stone with perfume and put it in drawers or boxes, if you wish a delicate odor of your favorite perfume.

It is said that white wash spots can be removed instantly by washing with strong vinegar.

Never allow yourself to eat when exhausted, physically or mentally. Slip either hot water or hot milk into it.

A few drops of glycerine taken into the mouth and swallowed slowly will often soothe an irritable cough by moistening the dryness of the throat. To relieve heartburn, or the "villainous" feeling of the dyspeptic, lay a cloth, wrung out of hot water, on the stomach, covering it closely with the dry flannel, repeating as the cloth cools.

When worn out with a day's outing, sponge the face and neck with water as hot as can be borne; sponge the temples, throat, behind the ears and the back of the neck, and, if possible, take a nap of ten or more minutes.

Smash-Up In Virginia

Passenger Train and Mixed Freight Collide on the Southern.

FOUR PERSONS ARE KILLED.

Washington, Oct. 19.—A telegram was received at the headquarters of the Southern railway, in this city, today, stating that a passenger train and a mixed train collided at Keysville, Va., at 6:15 o'clock this morning. Conductor Atwell, Placeman Dillon and Fireman Daniel Pincham were killed, as was also one railway mail clerk. One colored passenger suffered a broken arm and was badly cut about the face. C. D. Farmer, engineer of the passenger train, had his ankle broken and was badly bruised. Fireman Jackson, of the same train, was severely cut about the head. Baggage-master Tyler, of the mixed train, had a shoulder dislocated. Engineer J. D. Tyler, who was a passenger on the mixed train, was severely bruised. The telegram stated that physicians had been sent to the scene of the wreck.

BIRTHDAYS IN JAPAN.

With the exception of the emperor there are no individual birthdays in Japan. The people, however, make up this neglect by having a sort of general birthday of everybody in common, which is celebrated with great rejoicing.

There are two of these general holidays, one for each sex. The male birthday, which is known as the "celebration of the boys," occurs on the third day of the third month and the fifth day of the fifth month. These days are generally put aside and boys and girls respectively receive presents according to their station.

The birthday of the emperor, or Ten-o, as he is more properly styled, is also a general holiday for the Japanese everywhere. The houses are all decorated with flags, and in the evening the streets are gay with the lights of innumerable colored lanterns. In the morning the highest authorities go to the palace and offer their congratulations in person and the lower degrees offer them vicariously to their superiors. All the Japanese, without exception, congratulate their monarch on having added another year to his age.

TEMPTING RATE BY MARRIAGE.

"I see," said the amateur philologist, "that the man is going to marry a lady who has twice been a widow. Mr. Platt is tempting fate. The lady is almost sure to be a widow again. You will say this is an easy prediction to make because the Senator is nearly twice as old as the bride-to-be. But I would say that his chance to survive her was very poor even if he were as young as she. I have made a study of this question, and I find that in about nineteen cases out of twenty a man who marries a widow leaves her a widow again—that is, if he was not a widower himself. It works the same the other way, too. When a widower marries a woman who has not been married before he is almost sure to become a widower again. Mr. Platt is a widower, but he has married only one wife; while the lady has been twice bereaved; therefore her chance is twice as good as his. I don't attempt to account for this. But if you will watch you will find that the law which I have described works out to the same end almost invariably."

FAITH OF THE SITTING HEN.

Perhaps in a way there is nothing more heroic than a female fowl trying to hatch something from nothing. The old gray goose will sit for months on a stone, after being robbed of her eggs, vainly hoping to induce a bevy of gossams from the impactive material.

And the hen is equally persistent and plucky. She will hover for weeks and weeks over a discarded knob, looking gladly forward to the day she will bring forth the reformed a fluffy thing. If men had the faith of an ordinary mother hen they could do miracles. No Christian martyr ever showed

more perseverance and blind faith than "Old Spee," when the fever of spring sets to working in her blood and the maternal instinct takes a firm hold of her entire being. Does any other creature exhibit such blind faith and trust and hope under discouraging circumstances? In ancient times mighty things were performed by faith and belief, but there is not in the whole world, ancient or modern, a more sublime example of this quality than that given by the sitting hen.

The hired man—vicious and ugly after a night at dancing—may hurt her from the feed box or from the horse; the boss may "dime the setting hen, anyway," but she will creep back after a little blustering and jawing and shaking out her feathers nestle down among the corn cobs, hoping doubtless thereby to hatch out a field of yellow hens. God of our fathers, if we had the divine faith of the brooding setting hen, we would go forth healing the sick and halt, and giving the blind back their sight.

VOTERS AT WORK.

With the election less than one week off the Democrats are more confident of victory than ever before in the history of the party. The organization is superb and not a section of the State and county or precinct has been overlooked and reports from everywhere indicate an increase in the Democratic vote.

A glimpse at the State Campaign Headquarters in Louisville makes it apparent at once the amount of work that is being done there. Nearly forty stenographers are working night and day and a force of men is kept engaged constantly in sending out campaign literature and seeing to the mailing of thousands of letters every day. Various committees are also at work at headquarters. Some have to do with organization, others with the assignment of speakers and others with the answering of mail. In fact the Democrats are doing more work in this campaign than in any previous political contest in the State. Much of the credit of the splendid organization which has been made is due to "the boys in the trenches" and the men who make up the organization in the county precincts.

In this campaign they have been faithful and active and should not cease in their work until the polls close on election day.

Much credit is also given to the State Press which has done much more work for the Democratic party in this campaign than ever before. The Democratic papers have used their columns to secure success and the good which they have accomplished can not be measured or estimated.

Every Democrat in the state who has aided in the slightest in the work of organization should feel that some of the credit is due him and that he has contributed in a large measure towards the success of his party.

The Democrats have met and answered all the arguments of the Republicans while the Republicans have been unable to answer the charges which have been made against them.

When the voice of the entire people has been heard the members of the Committee are confident that it will give a majority for Beckham and the entire State ticket of not less than 25,000.

HOWARD, POWERS AND JETT.

Jim Howard, Cash Powers and Onis Jett occupy the same ward in the jail at Louisville. An amusing incident occurred when they were put in their new quarters. Jailer Pfanz was in the room explaining to Powers what arrangements were being made. Curt Jett was an interested listener.

When Howard was brought in he joined the group. Jett looked up Howard for a moment and said: "Is this Jim Howard?"

"I beg your pardon. I thought you gentlemen knew each other," said Deputy Boyman.

"No," said Howard, shaking hands. "I never met Mr. Jett, though he was pointed out to me once in Floyd county, I think."

"Well, I wish I'd never been out of Floyd county," laughed Jett.

CHEAP LANDS

For Homesteaders and Colonies.

The country along the Cotton Belt Route in Southwest Missouri, Arkansas, Northwest Louisiana and Texas offers the greatest opportunities for Homesteaders. Fruit and abundant water, cheap building material, abundance of fuel, and soil that will often in a single season yield enough to pay for the ground. Land can be bought as cheap as \$2.50 an acre, prairie land at \$4 and \$5 per acre, bottom land at \$4 and \$5 per acre up, improved or partly cleared land at \$10 and \$15 per acre. Some fine propositions for colonies—tracts of 2,000 to 8,000 acres at \$4 to \$10 per acre—big money in this for a good grower. Fruit and truck lands in the famous peach and tomato belt of East Texas at \$10 to \$20 per acre. Write us for information about cheap rates, excursion rates, also literature descriptive of this great country and let us help you find a home that will cost you no more than the rent you pay every year.

DEMOCRATIC TICKET.

- For Governor, J. C. W. BECKHAM.
- For Lieutenant Governor, W. P. THORNE.
- For Auditor of State, S. W. HAGER.
- For Treasurer, H. M. BOSWORTH.
- For Attorney General, N. B. HAYS.
- For Secretary of State, H. V. MCHESENEY.
- For Supt. of Public Instruction, J. H. FUGUA.
- For Commissioner of Agriculture, HUBERT VREELAND.
- For Clerk of Court of Appeals, MORGAN CHINN.
- For Railroad Commissioner, HON. C. J. MCCORD.

Last every Democrat in the county be at the polls next Tuesday.

This week Governor Beckham will speak at forty different places.

Hon. Rollin Hurt spoke to a large audience at Edmonson last Monday.

Belknap and business buttons will be issued in the back yard after next Tuesday.

It has been decided that D. C. Edwards is the Republican nominee for Congress in this district.

When you get in your booth next Tuesday put your cross under the thresher and "let her go, Gallagher."

No further trouble is expected at Pittsburg on account of the closing of the large bank. Other institutions in the city were not affected.

It is said and believed by many Republicans that Dr. Hunter has caused to be lost to the Republican State ticket from three to five thousand votes.

The ministers of Evansville, Ind., have been preaching about the lawlessness of the city and in consequence many of them have been called to testify what they know before the grand jury.

After the election of Mr. D. C. Edwards to Congress, from this district, Deputy Collector Geo. Nell will be in the district right. He will evidently control the patronage in this part of North America.

Hon. Lawrence Ransau, of Glasgow, was the Marcus Hotel, this city, last Friday night. In speaking of the political situation, he said: "If Belknap was running for apples he could not get in the orchard."

The Indiana point view Democracy, Mayor of New York City. The Democracy is alive, and O. O. Stanley, the Courier-Journal correspondent, says he cannot see how McCallister and the Tammany ticket can be defeated.

Dr. W. F. Hammonds, of Dunmore, is the Democratic candidate for the Legislature from Casey and Russell counties. Dr. Hammonds is a man of experience, well informed and would make the district an ideal representative if elected. He is personally popular and we predict that he will make a strong race.

The Republicans of the Eleventh district will not have the pleasure of voting for Dr. Hunter for Congress to succeed the late Vincent Boring. The courts have decided that the name of Mr. D. C. Edwards, of London, goes under the log cabin.

The Columbia Spectator would not believe that the people of this county are so stupid as to believe in the stealing of State offices to vote for Beckham and Hurt; if they endorse political persecution and the hanging of C. W. Pender then vote for Beckham and Hurt. It also states, if you believe in honest elections, if you are opposed to political thievery; if you are opposed to sending innocent men to the scaffold because they are not God-believers, then for God's sake vote for men who believe in honesty in every thing and vote for Belknap and Baker. Strange indeed that Mr. Belknap and Mr. Baker imbeds all that is good and Mr. Belknap and Mr. Hurt all that is bad; strange that the Democratic candidate want to hang innocent men and the Republican ticket wants to release them. It is also strange that any man should be defending an assassin, thirteenth convicted, when he is receiving no pay for his services. Strange that Mr. Beckman is a dangerous man when his administration brought peace out of war, prosperity and abundance out of the mire of extravagance and penury; that the balance stands to the credit of the State; his institutions of every character in better shape than at any time in the history of the state; her school fund increased; her debt paid. Again Mr. Beckman received his nomination by a primary election; Mr. Belknap received his by the wily methods of a convention—the Federal machine grinding him out. Mr. Beckman is familiar with the business of the State, Mr. Belknap knows the hardware business. Mr. Belknap has made an immense fortune by manipulating the products of labor. It is for the people of Kentucky to determine which of the two that should be Governor of this State and we have not a fear nor a doubt as to the result. Now, we desire to say that Mr. Hurt is not a thief; that he is not a man who believes in persecution; that he does not want the innocent punished nor the pure placed on the scaffold. He came by his nomination by a unanimous demand from his party and hundreds of Republicans. He made no effort to secure it, but it was thrust upon him. How was it with Mr. Baker, the man so pure and spotless? The people of this county, and in fact the entire district, know that he used all the means within his power. It was not a question of purity of the ballot, it was a matter of being sought. We know Mr. Baker has stood before the Sunday school class for years, that he has admonished the rising generation to abstain from strong drink, we know that he has scored the purchase of votes, that he has been so high in the moral scale to join the jobbing political methods in the skirmish for office, we know that he was a Bourbon democrat of the roughest order, that he was an apostle of free trade. We fully understand that a change of front took place. We have heard that much money was spent to defeat Mr. Miller, his opponent, for the nomination. The voters of nearly every precinct have some knowledge of this, and yet the Spectator declares that he is the man who stands for all that is pure and wholesome, while Mr. Hurt is for the opposite. May the Good Lord have mercy upon all who will be misled by such an organ.

Consider the size of the county, Gov. Beckham and Congressman Ollie James were given one of the largest audiences at Smithland of the entire campaign. It is estimated that 3,000 persons heard the speakers. The Governor and party were met two miles from town by a thousand persons on horseback and in carriages and escorted to town, headed by a brass band. A reception was held at the hotel after the parade had passed through the principal streets of the town.

We find on Mr. Baker's card, which he used in the primary, that he said, "The question is who is best qualified to be Circuit Judge." This is still the question and the voters should decide the race between Baker and Hurt upon this question.

Work! Organize!
The Adair County News finds fault with the manner of conducting our County Convention last week. We will say for the benefit of the News that whenever the republicans of Adair county desire to be dictated to by the Adair County News, they will give due notice of that fact.—Columbia Spectator.

The above carries the force of an order to shut up and has reference to our statement made in regard to the treatment given Hon. L. T. Neat. It is immaterial with us as to how Republicans conduct their conventions, but we waive none of our privileges as a newspaper to advocate just and equitable treatment of our friends whether Republican or Democrat. We have no retraction to make in regard to what was said in our last issue, touching the convention held in this town. Tom Neat is a big-hearted man and to have given him the instructed vote of this county would not have been any discredit to the Republican party. He has his family, and so have we all. To be plain Tom Neat could do the district as much good in Congress as did Mr. Boring.

Considering the size of the county, Gov. Beckham and Congressman Ollie James were given one of the largest audiences at Smithland of the entire campaign. It is estimated that 3,000 persons heard the speakers. Gov. Hindman, who has been making Republican speeches over the State will return here this week. He recently stated in Columbia that Mr. Belknap had a walk-over in the race for Governor. It will be known next Tuesday night what kind of a prophet he is. The State is looking decidedly Beckhamish to us.

Monarch Coffee.

Rev. S. A. McKay, who is on the Campbellsville Circuit, has rented a house and will live in Campbellsville. We understand his residence is on the Lebanon pike, a desirable portion of the city.

FOR SALE

Our business house in Columbia, Ky. now occupied by F. Sinclair.

Mr. Gordon Montgomery sold his residence and several acres of ground, near the home of Mr. Z. M. Staples, last week to Mr. R. E. Newby, of Cumberland county, for \$1,500. The dwelling is two story and an ell, and was built three years ago. Possession will be given immediately after the election.

The corporation meeting of the Christian Church, held at Raley, last Friday, Saturday and Sunday was a very interesting gathering. There were nine preachers present, among the number Mr. F. Harmon, a native of Adair county, but now a resident of Dallas, Texas. The reports of the various ministers were very satisfactory and several logical sermons were delivered.

THE SPEAKING.

This (Tuesday) afternoon Col. Morris B. Belknap, Republican candidate for Governor, will address the citizens of Adair county. As we go to press people from all parts of the county are entering Columbia and the indications are that a large crowd will hear the speaker. Several Republicans of the town have been active for several weeks, organizing clubs, and it is said these organizations will march into town in a body. Col. Belknap has been making one speech all over the State, and we take it that it will be rehearsed here today. We understand that a large crowd greeted Mr. Belknap at Jamestown Monday. From this place he went to Liberty and in a few days will end the canvass. Mr. Belknap is not an experienced speaker, but the Republicans over the State seem to be satisfied with his efforts and the Democrats are making no complaint. His friends here gave him a cordial welcome and an enthusiastic hearing. A few more days and the fever will be over.

The Masonic Grand Lodge of Kentucky, held a very interesting session in Louisville last week. It was perhaps the largest delegation seen in the city for years, and much important business was transacted. The Masons, in the new temple, was dedicated with imposing ceremonies, all the different branches of Masonry marching to the temple in a body. Tuesday afternoon the children of the Home gave a public entertainment which delighted the fraternity, and was highly appreciated by the many visitors. The Masonic lodge in Louisville will experience in the building which is being erected at the corner of the Home gave a public entertainment which delighted the fraternity, and was highly appreciated by the many visitors. The Masonic lodge in Louisville will experience in the building which is being erected at the corner of the Home gave a public entertainment which delighted the fraternity, and was highly appreciated by the many visitors.

Our readers will miss Gradyville's interesting letter this week. Our excuse for its non-appearance is that Mr. W. M. Wilmore, the very efficient contributor, was in Louisville last week and did not return home in time to compile the news of his town. His letter will appear next week. In the last six years a letter from him has appeared in every issue of this paper with but four exceptions. His services are highly appreciated, and we always regret to have to make an excuse for the non-appearance of his communication.

Mr. Napoleon Allison, of Adair county, whose home is near the Russell line, was adjutant of a lunatic at this place last Thursday. Mr. Geo. Staples, deputy sheriff, carried her to Anchorage on Friday, but the institution could not receive her on account of the crowded condition. Mr. Staples returned to Columbia with the patient Friday night. She will probably remain with Mr. J. E. P. Conover until she can be relieved at an asylum, the Lexington and Hopkinsville institutions being full at this time.

We call attention to the condition of our cemetery. Weeds, briars, bushes and sedge grow as high as it is usually seen anywhere. Now is a good time to clean it. The sedge should be grubbed and burned. We gravel our streets and keep them clean, but the burial ground is sadly neglected. The committee in charge of this work should attend to it at once and not allow the rubbish to remain on the graves of loved ones.

FOR SALE.—A good dwelling with five comfortable rooms one-quarter mile from town. A good well, splendid outbuildings. The lot upon which dwelling is situated contains one and one-half acres of ground.

Mr. J. M. Smith, our Photographer, made a flying trip to Danville and reports much success.

Messrs. E. G. Atkins and Grison Ross, were here a few days ago.

CINCY FORK

The Braxton Massie farm again changed hands last Tuesday, this time being bought by J. T. Sablin from Crit Henson for \$5,500.

The Marriage of Mr. C. C. Christie to Miss Rosa Fess, of Watson, Wednesday 21st. will be no surprise to his many friends in this neighborhood, his new residence on the Christie farm bearing completion being sufficient evidence of his intention. Mr. Christie is highly esteemed by the people of the community in which he lives and the young lady whom he has chosen for a companion will be gladly received by his friends here.

Halsack & Hartfield, three men, finished up the season's work last Thursday by threshing the miller crop of 64 bushels for T. S. Scott.

John Green Sublett, one of Cane Valley's best young men, was visiting in this community last week. The election which is close at hand is causing very little excitement.

FROM THE COMMONER.

Lake Superior copper had so much water in it that the stock was badly corroded.

The Boers finally quit but Mr. Kipling still feels that he has a call to keep it up.

Mr. Hanna's "let well enough alone" cry is rapidly degenerating into a "let me alone" wall.

Mr. Roosevelt's outing is ended but the trusts' inning is still on in full force and effect.

In view of all the circumstances Mr. Hanna appears to be wise in insisting there is nothing to talk about.

John Gates shows gratifying signs of turning State's evidence in the case of the people vs. Wall Street.

Mr. Hanna may be physically ailing, but there is plenty of evidence that his ill temper is in perfect working order.

Every time Secretary Payne feels the need of a new laugh he presents Mr. Beavers with another indictment.

There is every indication that Mr. Beavers will soon come to look upon the indictment as a new kind of breakfast food.

The trouble with republican tariff revision is that the Republicans will not do it after election and dare not do it before election.

The senior Senator from Ohio is acting like a man who wants to make sure this time that he will not have to dodge the officers of the law.

The indications are that we will soon have a new cabinet officer, that of Secretary of official explanations. Of course Mr. Loeb will be the first incumbent.

A few years ago a flurry in Wall Street was called a "democratic panic." To-day the Republican organs refer to it as being merely a "period of liquidation."

The declaration that John Jacob Astor owns the most costly ring in the United States is calculated to make Messrs. Quay and Hanna wink simultaneously.

Some day it will dawn upon the American jockey that the only way he can participate in the racing game in England is always let the English mount win.

BRAIN LEAKS.

Courtesy is the oil that makes the wheels of business run smoothly.

People who believe in dreams usually have little faith in themselves.

The man who zealously guards his liberty is in no great danger of losing it.

Some people never do anything in church circles until they see an opportunity to kick up a fuss.

If we could only do our own work as easily as we think we could do another's, what a happy life this would be.

St.aking of great inventors, why not erect a monument to the memory of the woman who invented tomato sauce.

It is a wise mother who makes her son whistle while he is reeding the rams, but it is a wiser mother who lets the boy remain silent. What's a few raindrops by the side of a boy's good will?

A toothpick trust has been organized. The public will chew on it while with the eye teeth before buying stock.

Confessions Of A Priest.

Rev. John S. Cox, of Wake, Ark. writes: "For 12 years I suffered from Yellow Jaundice. I consulted a number of physicians and tried all sorts of medicines, and got no relief. Then I began the use of Electric Bitters and feel that I am now cured of a disease that held me in grasp for twelve years!" If you want a reliable medicine for Liver and Kidney trouble, stomachic disorder or general debility, get Electric Bitters. It is guaranteed by All Druggists. Only 50c.

Walter Jackson, the convicted murderer of a six-year-old boy at Hamilton, Mo., was lynched by a mob.

End of a Bitter Fight.

"Two physicians had a long stubborn fight with an abscess on my right lung" writes J. F. Hughes, of Du Pont, Ga. "and gave me up. Everybody thought my time had come. As a last resort I tried Dr. King's New Discovery for Consumption. The benefit I received was striking and I was on my feet in a few days. Now I've entirely gained my health." It cures all Coughs, Colds and Throat and Lung troubles. Guaranteed by all druggists. Price 50c, and \$1.00. Trial bottles free.

The dead-letter office has its share in the increased business of this period of prosperity. From the letters which were opened during the last year nearly fifty thousand dollars rolled out, besides valuable commercial paper and two hundred thousand photographs. So far as possible everything was returned to its owner.—Youth's Companion.

Upset All Predictions.

J. F. Hughes was a candidate for county treasurer at Du Pont, Ga., but it was predicted that he could not live six months. He was afflicted with a running abscess on his lung and suffered for three years; his life trembled in the balance when he heard of Dr. King's New Discovery for consumption. He tried it and was finally cured in thus upset the predictions of all who knew him. It is positively guaranteed for Throat and Lung trouble by All Druggists. Price 50c and \$1.00 Trial bottles free.

Citizens of the United States will no longer regard the decision in the Alaska boundary case as a just one, while the United States and Canada still look upon it as rather a bitter pill to swallow. People are prone to take sides according to their interests or previous convictions. It is a good deal so in criminal trials.

A love Letter.

Would not interest you if you were looking for a guaranteed safe for stores, business or piles. Otto Dodd, of Ponder, Mo., writes: "I suffered with an ugly sore for a year, but a box of Arnica salve cured me. It's the best Salve on earth. 50c at All Drug Stores."
